

**SCARED BY IRON HALL.**

**Members of Kindred Societies**  
Apprehensive of a Crash.

**Serious Charges Made Against**  
Somerby and Hays.

**Sold to Hays Manipulated the**  
Order's Funds in Their  
Own Interest.

The application for the appointment of a receiver for the order of the Iron Hall has created great uneasiness in this city and Brooklyn, and hundreds of despatches are being received by local officers of the society asking for a statement of the exact condition of affairs.

Today the gravest reports are current concerning the funds which are or ought to be in the hands of the supreme officers. It is said that the funds of the order were depleted by the failure of the Keystone bank, of Philadelphia, and that subsequently Mr. Somerby and Mr. Hays withdrew over half a million dollars from the Indianapolis banks and deposited the sum in a Philadelphia bank in which they are interested and which is said to be sustained to some extent by the funds of the order.

It is certain that the balances in Indianapolis have been much reduced. The truth of other reports that the money went elsewhere to sustain interests that were not the Iron Hall's has not yet been established.

There are five branches of the order in Brooklyn, one of which meets on Bridge street. The other four are in the Eastern District.

Mr. King, of Brooklyn, a prominent man in secret society insurance circles and a member of the Order of the World, said that he did not believe a word of the allegations against Mr. Somerby, whom he knew well. He is of opinion that the Iron Hall is entirely solvent. He was inclined to believe that the suit was instigated by the stock insurance interests and that jealousy was at the bottom of the attack. He said the order of the Iron Hall was the pioneer in the long-term system of endowment insurance, and that, although some of the short-term orders had gone to the wall, the Iron Hall's policies would not fail due to seven years, and that it had been proved that it could be made a financial success in that time.

George C. Duckworth, who is a prominent member of the Royal Arcanum, said to an EVENING WORLD reporter:

"I feel that the Royal Arcanum is sound both in theory and fact. It is run in a thoroughly business-like way, just like any good insurance company."

A member of the American order of United Workmen, expressing his opinion of the Iron Hall's bankruptcy, said that the order, and said that from a casual observation of the working of the Order it was plain that a financial crash was inevitable. In his opinion the Iron Hall's trouble could not shake confidence in the orders that were represented on a different basis.

Ferdinand Weeks, of 407 Adelphi street, Brooklyn, who is prominent in this branch of insurance, said he was in good health and that the main fund had a disability benefit, the former paying at the end of seven years in sums of \$1,000, \$500, \$250 and \$100, in the number of four ways.

There are 800 members of the order in the United States and Canada. Philadelphia has 800 members organized, and the order has a general organization that has been in existence since 1881.

The headquarters of the Supreme order, Mark C. Davis, are at Indianapolis, Ind., on 14th and Market streets. In this place the compiler, Redmond, is engaged in the writing of the Order of the Iron Hall, wherein a record was applied for in the Supreme court of Indiana, and the names of Albert K. Baker, Homer Sampson and Daniel Keeler, all of Indianapolis.
